# **Jean Houston, Ph.D.**

**at Seattle Unity Church**

*Dr. Jean Houston and her team of evocateurs will lead participants in a deep exploration of the important shifts occurring inside and around us at this crucial evolutionary moment. Yes, much is breaking down, and we want to be ahead of the shifts rather than swallowed up by them. Recognizing and cultivating this inner drive for personal and social change, we as social artists will participate in new beginnings, breakthroughs, re-patterning, and celebration.
